

DID YOU KNOW?

Clean energy projects send billions
to local governments in Texas.

Over their lifetime, the current fleet of utility-scale
wind, solar & battery storage projects in Texas are
estimated to generate **\$12.3 billion in new tax revenue**
to local communities.

Existing utility-scale wind, solar & battery storage
projects are **estimated to pay Texas landowners**
\$15.1 billion over the lifetime of the projects.

Over 75% of Texas counties are expected to receive
tax revenues from either wind, solar or
battery storage projects.
